Afghan Massacre

'Afghan Massacre – The Convoy of Death' tells of the horrific forced journey undertaken by thousands of prisoners who surrendered to America's Afghan allies after the siege of Konduz. Bundled into containers, many of the captives were shot within minutes. The rest suffered an appalling road trip lasting up to four days. American special forces took control of the operation, redirected the containers carrying the living and dead into the desert and stood by as survivors were shot and buried.

The film details how the Pentagon lied to the world in order to cover up its role in the greatest atrocity of the entire Afghan War. This is the documentary they did not want you to see.
