Free anarchist prisoners!

Around eight o'clock on Thursday morning (09/02/2006) a comrade got arrested as he was going home from work. Several masked up men belonging to the anti-terrorist police stormed the place where he was working and forced him into a van. Our comrade got then driven to his house in the neighbourhood of Horta where a house raid began. The police took fingerprint samples from all over the house and took away computers, hard drives, and paperwork. During the raid also another comrade is arrested but he is then released without charges the following day. At the same time another comrade's house is raided in the center of town and he is arrested. On the same day a picket in front of the police station where our comrades were kept gathers around 150 people. On Saturday 11th the two comrades declared in front of the judge who confirmed their arrest declaring preventive imprisonment waiting trial. They are being accused of public disorder and several acts of sabotage including an arson attack to the Sabadell Bank and to the C.I.R.E. (Centre de Iniciatives per la Reinsercio), an enterprise which exploits cheap prison labour in Catalunya. The main investigation in fact is focused on the CIRE, which has been targetted several times in the past among which a low intensity bomb on the 17th January 2005, an arson attack on the 22nd October 2004 and an unexploded bomb which nevertheless caused the evacuation of the entire building. (Accompanying the charges is the reference that both accused are part of anti-prison and prisoner-support groups, as if this is enough to find them 'guilty'.)

On Friday 10th, people gathered in front of the court house where the two were waiting to declare, the police brutally charged the group of people sitting outside, causing various injuries. On Sunday people met again for a demo outside the Modelo prison where the comrades were being kept, but once again the demo got charged by the police and Ruben, one of the two comrades got ghosted to Brians prison. On Tuesday Ignasi got trasferred to the prison of Quatre Camins.

They want to silence our screams
They want to clean up the streets
They want us slaves, submissive, with our heads low,
until we have breath left, the streets will stay alive!
