Britain has always claimed that she is a free just state, the real story is that there is no freedom and no justice for the Muslims. The British Empire was built on the oppression of Muslims and indeed non-Muslims, destroying the Islamic State, kicking the Muslims out of Palestine and forming the Pirate State of Israel are just some of its crimes against the Muslims. This humiliation continues today not only at home but wherever the Muslims are.

Occupation of Muslim Land: They call it liberation and freedom, we call it occupation and domination! Britain is the key ally for America and together they have invaded Iraq and Afghanistan and murdered hundreds of thousands of innocent Muslims. They have raped our women, murdered our fathers and orphaned our children. First they starve us then they bomb our towns and cities. They arrest and torture our men and boys not even the elderly are spared.

Police Raids: Since September 11th more and more Muslim homes have been raided. It's not if but when will the Muslim get raided. Our houses are broken into, doors smashed in, our wives and mothers are manhandled and our children terrorized, screaming with fear as daddy is arrested. The Police can do as they please, they can humiliate, beat the Muslim and even shoot them, all safe in the knowledge that Tony Blair will support them, no matter what they do.

Attack on the Veil: You can walk down the street in this land with next to no clothes on, they call that freedom, but if a Muslim sister wants to wear the veil she is seen as 'threatening'. Jack Straw removed his veil and showed his true hatred towards Islam and the Muslims when he demanded Muslim sisters remove their veils.

Terror Laws: The government invents a law every other week aimed at putting fear in the hearts of the Muslims, some are even tailor made for particular sheikhs or activists. With these laws the government hopes the Muslims will abandon their support for the Muslims, they hope to stop us standing against Western Terrorism and they hope we will give up our religion. So who are the terrorists? Are they the Muslims who defend their lands and protect their women and children or are they the British who occupy the land of others?

Media Crusade: Radio, TV, Newspapers and the Internet are all guilty of depicting the Muslims as barbaric blood thirsty terrorists. The truth is that the Muslims are a peaceful community who have lived in this country and had a massive positive impact on it. Whenever a Muslim is arrested or put on trial the media cook a new even more exaggerated story and create a witch hunt and frenzy in which the only verdict for the Muslim is guilty! Today whenever the word Islam or Muslim is mentioned the people think terrorist!

Insulting the Messenger Muhammad (saw): If a celebrity is insulted because of her race the whole world is in uproar, sponsors withdraw their support, there's a police inquiry, the behaviour is seen to be unacceptable. But if one fifth of the world's population is offended by the cartoon caricatures of the Messenger Muhammad (saw), this is seen to be quite alright! Rather than punish the perpetrators of this sick joke, the Muslims who peacefully demonstrated against the cartoons were arrested and punished, what was their crime? Answer. Incitement to racial hatred (i.e. insulting the Danes)!

Spying on Muslims: It is not enough that Muslims are spied upon by every government, now John Reid (the Home Secretary) wants us to spy on our children, he wants us to make sure they are not showing any strange behaviour, like coming home late at night (after Isha prayer) or leaving early in the morning (at Fajr prayer) or growing a beard or practicing Islam or having friends that practice Islam... what if John Reid visited the temples of the Hindus and Sikhs or the churches, would he be offering the same advice to their parents?

Torture and Killing: When Britain demanded the release of the 15 Navy hostages held by Iran they forgot to mention the hostages held by America in Guantanamo bay. It is about time the Muslims demanded the release of the thousands of innocent Muslim hostages held in countries all over the world.

The Messenger Muhammad (saw) faced oppression and suffering at the hands of the Quraish, his companions faced persecution and constant onslaught but they were never silenced, indeed throughout Muslim history the Muslims have been persecuted but they were never silenced, hence even today, against continuous attack, we will not be silenced!

"The believers, men and women, are Awliyah (helpers, supporters, protectors) of one another, they command good (justice) and forbid evil (oppression)..."
[Tawbah 9:71]
