

ON A MOVE

Ramona Africa

Ramona Africa will be touring the UK for 2 weeks to talk about the MOVE Organization, the events of May '85, the MOVE 9, Mumia Abu-Jamal and what they stand for. Come to listen to her story and watch the "MOVE" documentary.

MOVE is a revolutionary organisation set up in USA that fights to protect all life by spreading information and standing against the systems that harm life. They were strident anti-racism and environmental campaigners long before the mainstream took up the issues. Because of their unequivocal stance they have been constantly persecuted by the system. The persecution went from beatings, to armed attacks to eventually bombing their homes.

The **MOVE 9** are innocent people who have been incarcerated since 1978 when 600 armed officers raided their home. In the hail of bullets that went into the house one officer was killed and they were framed for it and denied a fair trial - they were even banned from attending their own trial for "contempt of court" because they insisted on defending themselves.
