

SAVE JOBS – SAVE THE PLANET - SAVE VESTAS!

The struggle the bosses' bailiffs could not stop

Vestas workers fight on for 600 jobs

After two weeks of occupying their factory on the Isle of Wight, the Vestas wind turbine workers were evicted by bailiffs at the court order of company bosses on 7th August. But Vestas workers are determined to fight on for their jobs and factory.

Workers demand the government steps in. If they can nationalise the banks why can't they nationalise Vestas to save the jobs and industry?

Wind turbines are a profitable industry.

From Jan-March 2009, Vestas made a net profit of €56million, up from €33million in the first quarter of 2008. Vestas is moving overseas only because its bosses are greedy for still higher profits. **The company has just been given £6million of public money – for what?** So 600 more workers can join an unemployment queue heading towards 3 million?

The government talks about 400,000 green jobs in the next five years. It should start with Vestas. Further, we demand no Vestas workers are victimised for fighting to defend jobs from this greedy multinational.

Support the Vestas workers – what you can do

Email savevestas@gmail.com
