

Please help me save my friend from homelessness (Re: Ion Matache & family, Calea Grivitei nr.60-62, Sector 1, Bucharest, Romania.)

Ion is the holder of the "Diploma of Honour in the Revolution of December 1989" and yet he seems to have been left to try to survive in almost destitution at the above address, which is partially collapsed (See attached pictures). It now seems that (under Law 112) Ion's merge home is now to be taken from him and "return" to it's pre communist owners and the Romanian Government intends to do nothing to help him, leaving Ion, his Wife and 3 young children homeless.

I fail to see how such a situation can be allowed in a modern, civilized European State and I am hoping you will support me in my efforts to persuade the Romanian state to do something about this, by signing the on line petition below, which I will present to the Romanian Embassy shortly:

[http://www.ipetitions.com/petition/save\\_ions\\_family\\_from\\_homelessness/](http://www.ipetitions.com/petition/save_ions_family_from_homelessness/)

and posted an article on Indymedia:

I have also already contacted the Romanian Ambassador to the UK and my MEP on this matter. I hope that you are able to do something to intercede on behalf of Ion.

Yours fraternally  
John
