No pasaran!

Since its emergence as a distinct ideology at the beginning of the Twentieth Century, fascism has brought more misery to the world than any other political doctrine. Yet, even today, even after the titanic antifascist struggles of the past, and even the Nazi Holocaust, from Anders Breivik to Dale Farm, the threat of fascism still exists. In the past, our comrades had the courage to stand up and say *No Pasaran!* – They shall not pass! – From Leeds' own Holbeck Moor, where Oswald Mosley was routed, to the battlefields of Spain. The heroism of these brave antifascists, who often paid the ultimate price for their resistance, should not be forgotten.

We are showing these films, documenting the fight against fascism in Spain, Germany, England, France, and Poland, to educate and inspire. We should never forget the reality of fascism nor shrink from confronting it ourselves. For evil to flourish it is only necessary that good people do nothing.

Leeds Antifascist Film Festival will take place at Space, an exciting new project at Mabgate, over the weekend of the 4th and 5th February, with films showing in the afternoon and evening. Stay for one film or for all of them, times will be advertised in advance.

As well as the films, there will be talks, refreshments (including vegan cake!) and the Leeds ABC bookstall will be there selling (as well as books) pamphlets, T-shirts, badges, CDs, and more. Admission is free, but donations will be gratefully received on the door. The event is a benefit for antifascist prisoners.

A full programme of the films and talks will be published closer to the event on the Leeds ABC and Space websites.

Hope to see you there.
