## Rodong Sinmun Calls for Performing Heroic Feats in 70-Day Campaign True to Self-Development-First Principle

Pyongyang, March 16 (KCNA) -- Rodong Sinmun Wednesday in an editorial calls for creating the new Chollima and Mallima speed and performing heroic feats in the 70-day campaign on the self-development-first principle.

The self-development-first principle represents a revolutionary spirit of remarkably redoubling our strength and paving our way ourselves.

It is the intention of the Workers' Party of Korea to help all Koreans work hard with the firm will to do everything, believing in their strength, without the slightest vacillation before difficulties and trial with the 70-day campaign as a momentum, the editorial says, adding:

Self-development serves as the most powerful weapon to instill into them strong faith that one's own thing is the best and one's own strength is the most dependable and to completely root out undesirable ideas and spirit such as flunkeyism, national nihilism and proclivity to import.

Matchless pluck and grit and indomitable stamina and high creative energy to solve everything by relying on one's own strength stem from absolute trust in one's own strength and strong will for national self-respect.

The party's determination and will to accomplish the great cause of building a thriving nation and realize the people's beautiful dream and ideals by our own efforts and with indigenous technology and resources are now being translated into realities through the dynamic practical drive of all service personnel and people of the DPRK. -0-

## Rodong Sinmun Brands U.S. as Nuclear Criminal

Pyongyang, March 16 (KCNA) -- Cecil Haney, commander of the U.S. Strategic Force, recently said modernization of nuclear weapons admits of no choice like a matter of urgent necessity.

Commenting on this, Rodong Sinmun Wednesday says:

This proves itself that the U.S. is a despicable nuclear criminal threatening the world with nukes and driving mankind into the crucible of a nuclear war.

It was none other than the U.S. which abused nuclear technology for manufacturing weapons of mass destruction and brought a nuclear disaster to mankind, the commentary notes, and goes on:

The U.S. has used A-bombs as means for domination, supremacy, highhandedness and oppression down through generations, regarding it as a powerful means for implementing its strategy for world domination.

The U.S. scenario to establish monopoly over nuclear weapons and carry out its nuclear strategy is posing a serious threat to international stability, peace and world development.

The world is, therefore, exposed to a fresh nuclear arms race and the danger of a nuclear war owing to the U.S.

The U.S. is mulling opening "2016 Nuclear Security Summit" at the end of this month.

Washington is vociferating about nonproliferation of nukes and nuclear substance though it is the world's worst nuclear criminal and culprit of nuclear proliferation. This is a tragicomedy that makes the boiled head of a cow provoke a side-splitting laughter.

The empire of evils should be brought to a court of history as it is making desperate efforts to dominate the world with horrible nuclear weapons. -0-

## Rodong Sinmun Warns Warmongers Not to Go Reckless

Pyongyang, March 16 (KCNA) -- It is quite just that the revolutionary armed forces of the DPRK have taken a full posture for a preemptive attack in the face of the daily increasing nuclear war moves of the hostile forces.

Rodong Sinmun says this in a commentary Wednesday.

It goes on:

Neither the Korean nation nor the world people can escape a nuclear war disaster if the enemies are overlooked in their nuclear war racket for invading the north which increasingly gains severity.

The DPRK needed a new mode of counteraction under the extreme situation in which the U.S. sought to brandish a nuclear war sword.

The revolutionary armed forces of the DPRK have entered into the general offensive to fully counter the nuclear war provocation by the U.S. and its followers, a reflection of the burning hatred of all servicepersons and people of the country and their will to make a thousand-fold retaliation against the enemies.

Now that the enemies have openly opted for nuclear war provocation defying the sovereignty of the DPRK, its military counteraction can not but be more preemptive and offensive nuclear strike.

All the operation groups of the revolutionary armed forces of the DPRK are

fully ready to preempt merciless and annihilating strike at the enemies if they show even the slightest sign of provocation.

The U.S. should clearly be aware of the war deterrence built up by the DPRK for decades for a final victory in confrontation with it.

The aggressors, war maniacs had better be prudent if they do not want to be shelled by various caliber multiple launch rocket system, being targeted by the retaliatory nuclear bomb attack means deployed standby in the operation theatres of the powerful revolutionary Paektusan army. -0-

## Sanctions Do Not Work on Korean People: Chilean Organization

Pyongyang, March 16 (KCNA) -- As shown by the reality of the DPRK undergoing steady development, sanctions do not work on the Korean people.

The Chilean Branch of the Korean Friendship Association said this in a statement issued on March 5 criticizing the UN Security Council's unreasonable "sanctions resolution" against the DPRK.

The statement said:

The UNSC's "sanctions resolution" against the DPRK is for realizing the U.S. and its stooges' sinister purpose to occupy the DPRK.

The U.S. persists in slandering the DPRK.

It is also working hard to invade the DPRK again.

We strongly denounce the UNSC's "sanctions resolution" against the DPRK.

Those who masterminded the "resolution" are, indeed, the betes noires of history.

The above-said resolution contradicts the UN Charter.

The Korean people will as ever register successes and strike the imperialists with horror. -0-

Zelenov, first secretary of the Nakhodka City Committee of the Maritime Territory of the Communist Party of the Russian Federation, said:

The joint military exercises being staged by the U.S., south Korea and other followers are rendering the situation on the Korean peninsula extremely tense as they are unprecedented in their aggressive nature.

The war rehearsals are unpardonable gangster-like moves to deprive a country of not only its sovereignty but also its right to existence.

A secretary of the same city committee fully supported the self-defensive and decisive measures taken by the DPRK to cope with the outrageous "sanctions resolution" fabricated by the U.S. and its followers and the aggressive joint

## U.S.-S. Korea Joint Military Drills Denounced in Indonesia

Pyongyang, March 16 (KCNA) -- The Pioneer Party of Indonesia, Founding Committee of the Soekarno Foundation for Education of Indonesia, Indonesia-Korea Association for Friendship and Cultural Exchange and Bungkarno University of Indonesia in a joint statement on March 9 denounced the U.S. imperialists and south Korean warmongers for their joint military drills targeting the DPRK.

The statement said that the U.S.-south Korea joint military exercises Key Resolve and Foal Eagle 16 are the largest-ever nuclear war drills involving huge troops and war hardware.

It went on:

The DPRK clarified its principled stand to resolutely counter the joint military drills with a more preemptive and offensive nuclear strike now that the war drumbeats are regarded as the most undisguised nuclear war provocation against it.

It is a sovereign state's due right to self-defence that the DPRK has bolstered up its nuclear force to cope with the U.S. ever-escalating nuclear threat and blackmail against it.

We, who set store by peace and justice, condemn the U.S.-south Korea joint military exercises as a grave provocation harassing peace on the Korean peninsula and in the rest of the world and strongly urge them to stop the criminal nuclear war drills at once. -0-

The U.S. again prodded the UNSC into cooking up the hostile "resolution" touching off resentment of the progressives, instead of concluding a peace treaty with the DPRK, the statement noted, and went on:

It is entirely just for the Korean people to resolutely reject the "resolution" and firmly defend their homeland.

No one is allowed to take issue with the DPRK's right to self-defense and space development for peaceful purposes.

The Maritime Territorial Regional Committee of the Communist Party of the Russian Federation noted in a statement:

The U.S.-south Korea joint military exercises have been kicked up every year but the on-going drills are unprecedented in their aggressive nature.
